

Annual Workshop

Urban Climate Resilience Southeast Asia Partnership

- Date and Time:** Monday 26 January to Thursday 29 January 2015
- Location:** Bangkok, Thailand
- Goal:** Agree on key conceptual and operational elements of the Urban Climate Resilience Southeast Asia Partnership
- Objective:** Each day has a specific objective that contributes to the overall goal.
- **Day 1:** Outline and agree on operational and governance framework, and student support
 - **Day 2:** Discuss urban climate resilience concepts
 - **Day 3:** Visit a field site that exemplifies core challenges
 - **Day 4:** Outline work plans for the project and individual countries

Day 2: Tuesday 27 January 2015

Day two will focus on the substantive issues and research questions at the heart of the UCRSEA in order to ensure better shared understanding amongst participants.

- How can this project contribute to capacity building, policy change
- Networking and collaboration

Time	Activity	Notes
