

## Urban Climate Resilience in Southeast Asia Partnership (UCRSEA) Selection Criteria

Applications are reviewed by the UCRSEA project's Student Selection Committees, which consists of academics from Canada and Southeast Asia. Selection will be based on the following criteria:

- Overall fit with UCRSEA's research criteria
- Overall appropriateness, completeness, quality, and clarity of the research proposal
- Overall methodology and consideration of constraints (logistical, cultural, ethical, etc.)
- Originality and creativity of the research
- Potential contribution to existing knowledge on the issue
- Applicant's capacity to conduct the proposed research, including academic training, local language capacity, professional skills, research experience, and knowledge of country/region of research
- Applicant's financial need
